

BOARD HANDLING

CATALOG NOVEMBER 2017

PRE-OWNED BOARD HANDLING EQUIPMENT

RETROFIT SERVICE

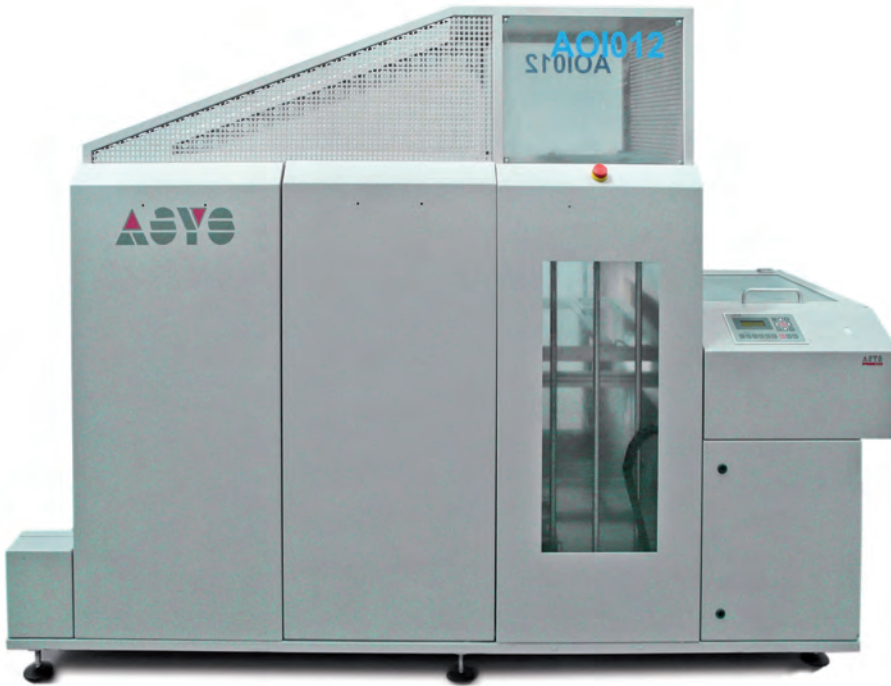

PCB RACKS

BOARD HANDLING EQUIPMENT

Pre-owned board handling equipment from ASYS, MIMOT, MÜHLBAUER, NUTEK and UNIVERSAL.
Please ask for a quote.

Please visit
www.AdoptSMT.com/equipment
to see available board handling equipment.

SERVICE

Retrofit service offered to modify interfaces,
transport direction, transport height, etc.
Please ask for a quote.

PCB-MAGAZINES

FOR AUTOMATIC LOADERS AND UNLOADERS

For PCBs 40-450 mm

Pages 4-5

Heat resistance up to 80°C board temperature. Reversible options, numbered slots, handle protection, synchronized adjustment and assembly service.

PCB-MAGAZINES

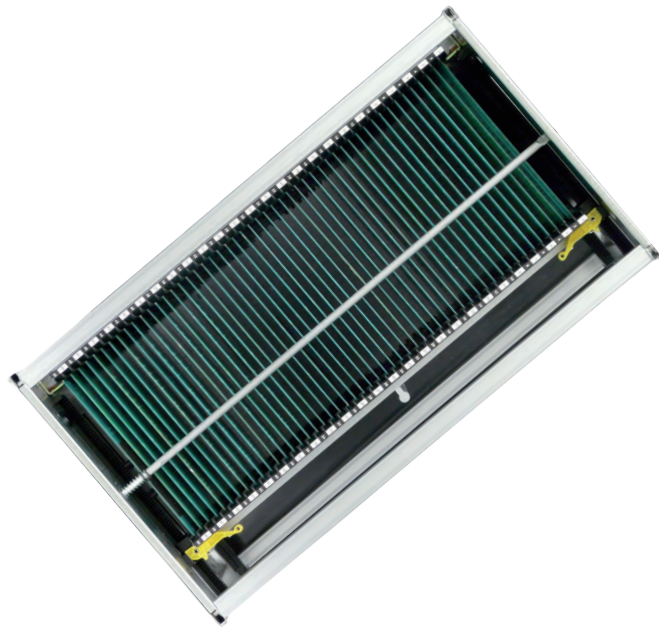

FOR AUTOMOTIVE

For PCBs 40-250 mm

Pages 6-7

Heat resistance up to 120°C board temperature. Either reversible or stackable, PCB locking, automatic lock detection possible

AdoptSMT PCB Magazines for automatic loaders and unloaders.

THIS RACK IS FOR TURNING.

Stopper bar

NEW

New stopper bars with spring are easily 'clipped' inside the rack. No clattering. No falling out. This makes all racks of height 563 mm compatible for reversible ("upside down") use.

Numbered slots

No more counting is what counts. All slots are numbered from 1 to 50.

Handle protection

Handles on top and bottom makes flipping the board easy. Plastic covers take care of your comfort and safety.

Always on par

Parallelism of the adjustable side board is ensured by synchronized gears. A centered handle on the outside ensures easy width adjustment.

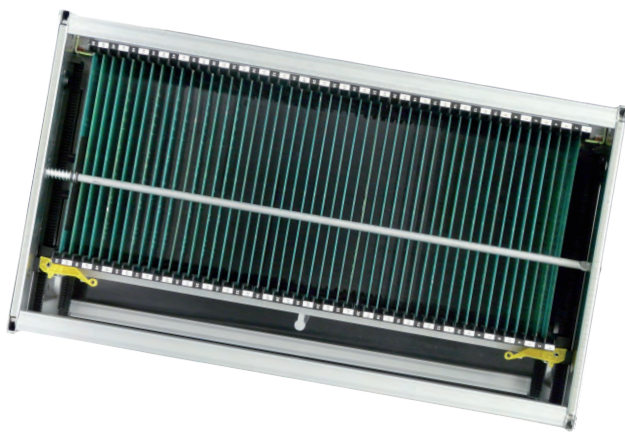

New fixing clips

New, more reliable fixing clips for better durability.

Assembly service

AdoptSMT PCB racks are shipped partly assembled. Assembly service is offered for EUR 25.00/ rack upon request. Please consider increased freight costs for shipping assembled racks.

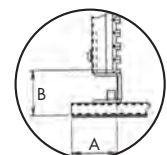

AdoptSMT Premium PCB Magazines

All magazines have a metal frame to assure stability and stackability. The side panels are made of plastic and come with a gear track system for easy and fast width adjustment. All AdoptSMT Standard PCB Magazines are ESD compliant and heat resistant up to 80°C board temperature. All racks have 50 slots with a 10 mm pitch. AdoptSMT Standard PCB Magazines with height 563 mm are ready for reversible use.

YOUR PCB'S LIVING ROOM

AdoptSMT PCB Magazines for automotive

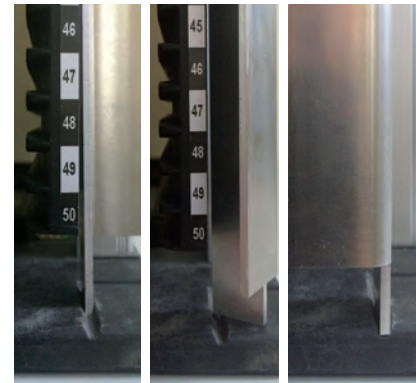

Plastic top and bottom board

In order to meet the ESD compliance requirements of the automotive industry, top and bottom boards are made of plastic.

Either reversible or stackable

The stackable M03PS model has a seating on top for easy and safe stackability.

PCB locking

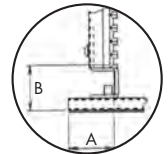

Your PCBs are safe via full height locks on each side. Automatic lock detection is possible via loader/unloader sensor.

AdoptSMT Premium PCB Magazines for Automotive

All magazines have a metal frame to assure stability and stackability. Top and bottom boards are made of plastic. The side panels are also made of plastic and come with a gear track system for easy and fast width adjustment. All AdoptSMT Automotive PCB Magazines are ESD compliant and heat resistant up to 120°C. All racks have 50 slots with a 10 mm pitch.
